

## Zelle®\* Set Up and Usage with your Members Choice Debit Mastercard

Your Members Choice Debit Mastercard can be added to Zelle so you can safely send and receive money to people you know through the Zelle app. It's fast, safe and easy – see how it works:

1. Download the Zelle app for iOS or Android and select Get Started
2. Follow the prompts to accept permissions to your device. Set up your account by providing your phone number and agreeing to the Zelle terms and conditions
3. Search for Members Choice when prompted to Find Your Bank, then select "Don't See Your Bank?"
4. Select Set up Debit Card
5. Enter your Members Choice Debit Mastercard account information – account number, 3-digit code and expiration date from the back of your card. Then enter your name, address and set your password.
6. You are all set to send and receive payment requests tied directly to your Members Choice checking account\* – always be sure you know and trust the person you are sending money to

If your recipient does not have access to Zelle through their financial institution or does not have the Zelle app, they will be notified via text or email. They can then download the Zelle app and enroll to receive funds directly to their designated account.

If you need to change the debit card information tied to your Zelle account:

- Tap on the settings gear icon in the upper left corner of the Zelle app home screen.
- From the "**Account**" option you can change your debit card by selecting "switch accounts". You'll follow the prompts to add your new debit card.
